IKECHUKWU EGWIM

FRONTEND DEVELOPER

Lagos, Nigeria | +2348107027244 | egwimikechukwu.gp@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Frontend Developer building web and mobile applications with React, Next.js, and React Native. Delivered an investment platform serving 5,000+ users and optimized UI components to reduce navigation time by 25%. Skilled in TailwindCSS, API integration, state management, and responsive design. Experienced in Agile environments, translating wireframes into scalable, high-performance interfaces.

TECHNICAL SKILLS

Frontend: React.js | Next.js | React Native | Expo | HTML5 | CSS3 | Tailwind CSS

Backend: Node.js | Express | MongoDB | SQL basics | RESTful APIs

Languages: JavaScript | TypeScript | Python

State Management: Redux | Context API | Zustand

Tools: Git (GitHub/GitLab) | Figma | Supabase | Keycloak | Firebase

Best Practices: Responsive Design | Accessibility | Performance Optimization | SEO Basics

PROFESSIONAL EXPERIENCE

Integrated Software Services Limited – Frontend Development Intern (Onsite) | Apr 2024 – Nov 2024

- Built an investment platform for buying shares and bonds, serving 5,000+ users.
- Developed 10+ reusable UI components, improving responsiveness and reducing navigation time by 25%.
- Integrated Keycloak authentication for secure login and role-based access.
- Delivered 95% of tasks on time in a cross-functional Agile team.

Acme Software Labs – Software Development Intern (Remote) | Jun 2023 – Aug 2023

- Developed responsive UI components for a driver's license application platform, reducing submission errors by 30%.
- Optimized performance across desktop and mobile, reducing page load time by 25%.
- Maintained clear documentation and achieved a 90% sprint completion rate.

PROJECTS

CampusCrib – Student Accommodation & Roommate Finder (Final Year Project, In Development)

Stack: Next.js | React | Tailwind CSS | Redux | Node.js/MongoDB | GitHub

- Built multi-step search and filtering interface for hostels.
- Implemented dynamic roommate matching using Redux for state management.
- Translated Figma designs into fully responsive, reusable UI components.

FinTrack (Mobile App) – Personal Finance Tracker

Stack: React Native | Expo | Zustand | Charting Library | GitHub | Live Demo

- Built cross-platform mobile app with transaction logging and budget tracking.
- Managed app state with Zustand for real-time balance updates.
- Integrated charts to visualize daily and monthly spending trends.

EDUCATION

B.Sc., Computer Science – Federal University of Agriculture Abeokuta (FUNAAB), Ogun State, Nigeria | June 2025

CGPA: 4.2/5.0

Relevant Coursework: Algorithms, Data Structures, Database Design, HCI, System Design, Software Development Lifecycle

Highlights: Developed course projects implementing frontend and backend systems; applied design thinking principles; consistently top grades in algorithms, UI/UX, and database design.

TRAINING

Rise Academy – Mobile Development Trainee (Remote) | Jan 2025 – Present

- Building cross-platform mobile apps with React Native focusing on responsive UI and smooth UX.
- Practicing API integration, state management, debugging, and core mobile features including push notifications and offline functionality.
- Engaging in hands-on Agile projects emphasizing Git collaboration, time management, and communication.
